**Proceeds Used For:** Our organization is here to help educate people on paddling, safety of paddle and help other organizations train and educate on water safety. To help raise funds for a whitewater park in Sioux Falls and to raise funds for an engineer company to come into town do a feasibility plan, conceptual design, cost opinion, speak with stakeholders, speak with city officials, and speak with the Parks and Recreation Department. Sioux Falls Whitewater Park wishes to have a park built on The Big Sioux River for the use of kayaks, canoes, body boards, swimmer, tubers, standup paddle boards, fishing, and safety training. These whitewater features are designed to be safer than normal river rapids. This will be a great place for training Fire and Rescue, boy scouts and safety training for park users. After the park is built we plan on to hosting training events to help people understand water safety and other skills for paddling. A whitewater park is also a great source of economic income from people all over to use the park and for events on the park which we will try to get an annual event to attract people all over the United States. We want to grow economic value to Sioux Falls ($600,000-$1,500,000 possible economic income for the city), have a safe training place, educate public about water safety, and have a fun/free attraction for residents and people from everywhere. Sioux Falls Whitewater Park is registered with the State of South Dakota as a non profit and will be submitting a Form 1023 in the next few months to become a federal non profit 501c3.

Sincerely,

Mitchell Joldersma
